

Construction businesses save \$44,500 annually with our innovative HR, compliance and human capital solutions.

Typical Construction Issues Our Experts Resolve

- **OSHA Health & Safety Working Conditions**

Are there special requirements for restroom facilities based on the number of employees? Must we provide drinking water to our outdoor workers?

- **Travel Time**

We have a lot of employees who do not have a defined worksite and drive our company trucks to each site. Do we have to pay for the time driving to the site, since it is different every morning? What about employees who go to different sites during the workday?

- **FLSA**

We are a small family-owned construction business and have questions about paying family members. Do we have to pay a child or parent prevailing wage on a public works job? Do we have to pay a spouse a wage for doing work?

- **ADA/Alcohol**

An employee admitted to her supervisor that she has a problem with alcohol, but says that she does not drink while working. Can we require alcohol testing on the job as she is in a safety sensitive position, drives a company vehicle to job sites and performs work as a construction inspector?

Trusted Construction Tools & Training We Offer

Advisory Services

Resolve employee issues promptly and accurately. Our certified advisors are standing by to answer questions, provide guidance, and follow-up with research to advise on sensitive issues like safety, attendance, and overtime.

HR & Compliance Tools

Create a high-performing organization in record-time. Access a best-in-class library chock-full of templates, forms, and checklists that ensure your company is compliant. You'll love our up-to-date, accurate, user-friendly tools.
