HEALTH CARE AND DEPENDENT CARE FLEXIBLE BENEFIT ACCOUNTS

Elauwit provides you the opportunity to pay for out-of-pocket medical, dental, vision, and dependent care expenses with pre-tax dollars through Flexible Spending Accounts. You must enroll in the plan to participate for the plan year January 1, 2015 – December 31, 2015. You can save approximately 25% of each dollar spent on these expenses when you participate in a FSA.

A health care FSA is used to reimburse out-of-pocket medical expenses incurred by you and your dependents. A dependent care FSA is used to reimburse expenses related to care of eligible dependents while you and your spouse work.

Contributions to your FSA come out of your paycheck before any taxes are taken out. This means that you don't pay federal income tax, Social Security taxes, or state/local income taxes on the portion of your paycheck you contribute to your FSA. You should contribute the amount of money you expect to pay out of pocket for eligible expenses for the plan period. If you do not use the money you contributed to the FSA it will not be refunded to you and you can only carry over up to a maximum of \$500.

The maximum that you can contribute to the Health Care Flexible Spending account is \$2,500 per year.

The maximum that you can contribute to the Dependent Care Flexible Spending Account is \$5,000 if you are a single employee or married filing jointly, or \$2,500 if you are married and are filing separately.
