The information in this Enrollment Guide is presented for illustrative purposes and is based on information provided by the employer. The text contained in this Guide was taken from various summary plan descriptions and benefit information. While every effort was taken to accurately report your benefits, discrepancies, or errors are always possible. In case of discrepancy between the Guide and the actual plan documents, the actual plan documents will prevail. The plan documents will govern all plans covered in this Guide. The Guide is not a contract or a guarantee of your eligibility or benefit. All information is confidential, pursuant to the Health Insurance Portability and Accountability Act of 1996. If you have any questions about your Guide, contact your firm administrator. If you sign up for coverage that requires evidence of insurability, even though deductions may start, you are not considered enrolled in the plans until confirmed by the carrier. If declined, you will be reimbursed.

Medical insurance is an important part of your benefit package. Medical costs continue to rise at double-digit rates, and you must work together to control costs. You can help control costs by taking responsibility of your health by:

- Living a healthy lifestyle, exercise, eat a healthy diet, and take part in our health screenings and have an annual physical
- Identify health risks by taking the Personal Health Assessment (PHA)
- Be a wise health care consumer, take generic drugs when possible
- Take advantage of our wellness offerings
- Use preventive care services as much as possible
